Permit required

There are multiple side trails, but the water may be present and will need to be crossed at several points.

A moderate to strenuous water hike that requires you to hike along and through the stream all the way up the canyon. Due to climbing a 15 ft waterfall, use care approaching the waterfall as the surface is uneven and slippery with slick rocks.

Keep someone informed of your plans and when you plan to return. Conditions and weather prior to hiking. Carry plenty of water and always be prepared with proper equipment. Located at the south end of Kanarraville.

Many trails are multi-use, watch for bikers and riders on horseback. Hikers yield to riders on horseback. Hiking in a group? Hike in single file. Pets are allowed on leashes and with an owner.
